THE SPORT OF BASEBALL

That baseball is the most popular game in these parts there is no gainsaying and as a game it is certainly interesting and chuck full of real good, clean, healthful sport. It is a game that a stranger to it quickly learns something about and is not long in becoming keenly interested in. It has its scientific points and one must study carefully the rules each year to be able to follow intelligently.

The big league games are not only scientifically played by professional players, but these profession is also paid huge salaries, and then baseball becomes more business affair—the true sport being lost in gambling and too often in bad feelings between the various towns, and cities. These towns and cities justify their expenditures under the heading of advertising, which is very questionable, indeed.

To make matters worse small towns and even villages try to imitate the large centres by this questionable sort of undertaking, frequently at a cost far exceeding reason, which quite usually only results in quarrels and ill feeling between the rivals that cannot possibly accomplish any good and often much harm.

In the smaller places is where one can usually enjoy baseball at its best. There the proper sport spirit reigns and the game is played for the real fun that can be gotten out of it. Two teams, composed of local men who are all well known to the assembled crowd of their very best to put up a good game and when it is over shake hands all around and declare they thoroughly enjoyed the game, whether defeated or not. They allow the umpire made a few mistakes, yet not nearly so many as the players themselves, and look forward to just such another fine outing.

This latter is what the sport loving public enjoy most, and the sooner we get back to the game the better—not that each community should not do its best to have the best players possible and continue to improve, but that the game should be played for the sport there really is in it, by local players, and the financing only of that which is necessary to meet ordinary expenses.

Baseball to day reminds us of the old story where the preacher likened his position to that of the lively horse. The congregation hired the minister at so much per year and the sooner we get back to the game the better—not that each community should not do its best to have the best players possible and continue to improve, but that the game should be played for the sport there really is in it, by local players, and the financing only of that which is necessary to meet ordinary expenses.

Several years ago when the neighboring towns were paying big prices for baseball players we were talking with a number of Calgary newspaper men about the game when one of them asked us how it was Gleichen did not appear in any of these big league games. Our answer was: Gleichen plays baseball for the real sport of it and that is what have been some of our Calgary towns. Out side of a couple of school boys Gleichen players are men worth from \$10,000 upwards, who do not believe in hiring men to take their fun away from them. This was a poser and the subject closed.

Lets cut out the hired man—and play baseball for its worth and sport.

PACIFIC AND ATLANTIC WHEAT SHIPMENTS

The two principal Canadian outlets for Canadian wheat at the present time are Montreal and Vancouver. In its last open season Montreal shipped 89,900,812 bushels of wheat, or more than half the total grain shipments of 155,088,244 bushels. The past winter witnessed an unprecedented movement of wheat out of Vancouver. At March 31st, 7,640,647 bushels of the 1925 crop had left the Pacific coast port, of which about 27,000,000 bushels went to European markets and nearly 20,000,000 bushels to the countries of the Orient. The total export is considerably double that of the previous year and indicates the early prediction that Vancouver would handle in 1925 30,000,000 bushels of the 1925 crop, with the fulfilment of which the port of Saint John in the past winter increased substantially over those of the previous season.

Plans for the movement of the 1926 wheat harvest have already been discussed by the Board of Grain Commissioners for Canada which has under its jurisdiction over 4,000 country elevators in Western Canada and controls 32 terminal elevators at the head of the lakes. There is no doubt that Montreal to take care of the future increased business which the port must get as future crop expands and crops become larger, and according to a statement of the secretary of the Harbor Commissioners last year, the port is capable of handling much more grain than it has been coming to it. Vancouver is steadily increasing its facilities for the handling of wheat and is going to have a larger part in the handling of the Western crop. The port of Quebec is this year anticipating a greater volume of wheat for export, and there would seem to be every assurance of the Maritime Province ports securing a larger share of the export wheat trade than has been the case in the past.

The Minister for Agriculture for British Columbia told a gathering that clippings which he had received from the Old Country papers predicted the time would soon come when the price of wheat would no longer be set at Liverpool but on the Prairie wheat market.

Here and There

Tremendously rapid development of forest and water power resources of the Province of Quebec is indicated in the forecast of revenues totalling \$6,000,000 from these sources for the current year. Last year the same resources produced a revenue of nearly \$4,500,000.

Sixty men from the training camps in Brandon and Clayton, England, have been accepted by the Canadian Government and sailed on the "Empress of France" at the end of June. They proceeded to Winnipeg after landing at Quebec and will be placed on specially selected farms.

Saskatchewan exported last year 774 per cent of its total production of creamery butter, according to a statement made by the Provincial Dairy Commissioner. The increase in production in 1925 over that of 1924 had amounted to 126.5 per cent, the output last year totalling 15,946,235 pounds.

Close on one hundred pilgrims from St. Paul and Minneapolis passed through Montreal recently on their way to the famous shrine of Ste. Anne de Beaupre, near Quebec. They were the advance guard of the great army of pilgrims that visit the shrine every year. While stopping off in Montreal they visited the St. Joseph Oratory in that city, also well-known as a shrine.

Hundreds of students and co-eds from Canadian and American universities have been passing through Montreal recently to board the ship "Empress of France" for Europe. They were the advance guard of the great army of pilgrims that visit the shrine every year. While stopping off in Montreal they visited the St. Joseph Oratory in that city, also well-known as a shrine.

Clad in gorgeous scarlet tunics, plentifully decorated with gold braid, forty members of the world-famous Coldstream Guards Band, of London, reached Quebec recently on the Canadian Pacific liner "Montreal" on their third visit to Canada, having been here in 1904 and again in 1911. Under the command of Lieutenant R. G. Evans they will play at Brandon, Calgary, Edmonton, Saskatoon, Regina, Vancouver and the Toronto Exhibition.

The electrification of the main line of the Imperial Japanese Government Railway system from Tokyo to Shinjima, 170 miles, has been long projected, and recently the 45-mile section between Tokyo and Odawara has had experimental trains drawn by electric locomotives run twice a day between these points. Owing to the great expense involved it is feared it will be many years before the entire main line can be electrified.

Founded 22 years ago in gardens on the site of which the Canadian Pacific Railway Windsor Street Station in Montreal now stands, the St. Jean Baptiste Society of that city celebrated that event on June 24th last by having a memorial tablet affixed to the walls of the station. The tablet was the gift of Victor Morin, former president-general of the society, who was present and unveiled it.

Negotiations have been completed for the erection, and work will shortly commence, upon a terminal warehouse and cold storage plant, to cost about five million dollars and to be built in Montreal. It is stated that it will be constructed within ten months from the end of June, and will be ten stories in height and will have a total space of 600,000 square feet, of which one-third will be for cold storage. The plant will be built by the Montreal Rail and Harbor Terminal, Limited, and will be financed by Municipal Bankers' Corporation of Toronto.

IN the Improved Chevrolet Coach at this new low price, is found the world's greatest closed car value.

Three-speed transmission—modern design—smart appearance—Ducol finish—long, flexible springs—ample power—world famous operating economy—all season comfort—quality construction throughout.

Come to our showroom and satisfy yourself that here is a low-priced closed car that is worthy of your ownership. Other Chevrolet models also on display.

TOWN AND DISTRICT

All ready for Chautauque opening tomorrow night. Don't miss any of it if you can possibly be there.

J. G. Harris arrived last week from Edmonton to take over the management of the N. Bawlf elevator at Gleichen.

There is no truth in the report that Douglas Havelock and Walter James have asked Mrs. Nellie McClung to be the Liberal-Conservative candidate for this constituency.

The new Gleichen Telephone Exchange building is fast nearing completion and will be very neat and attractive, and a grand improvement on the present structure.

Wonder if the Boston Post when it takes Canada for war debt will let along "O Canada" now and then or the "Mighty Left"? We could hardly expect to be allowed to whisper "God Save the King."

A. D. Batty, wife and family moved from Conditale Friday and spent a day in Gleichen visiting friends and attending to some business. Their numerous friends were pleased to see them all.

The friends of Mrs. M. A. Durkee were pleased to see her on the street Saturday, although she still requires the aid of crutches to walk with. It will be remembered she fell early last spring and injured her leg.

Perhaps our own member Mr. Gerald, would be interested in a visit to hear discuss Federal politics at any time in the wide Dominion. He should have something worth while listening to at the present stage.

Miss E. Frankton after quite a lengthy vacation is again advertising in this issue that she is prepared to take charge of maternity cases. Miss Frankton has many friends in this district who will be pleased to learn this.

Evidently there are some who expect to do some grain cutting as W. Stuenkel, the Massey-Harris implement agent is very busy these days setting up the new No. 6B binders. Harry Pober is the engineer in charge.

The abusive politicians are already getting busy on the Federal election campaign in the east and the west may expect to hear some of their language before long. Abuse seldom captures many votes, yet some folks seem to enjoy it—of course, so long as it is not their party.

For failing to carry out instructions to destroy weeds grown up in N.W. 12-23-24-4, as ordered by the weed inspector of Blackfoot M. D. No. 218, a summons of the Court of Sessions was filed and the case was heard in Mr. McQueen's court last night. This is published as a warning only.

It got so awful hot down east that the Boston Post and one or two other Yankee dailies began to tell that they offered to accept Canada in lieu of the British war debt. There is no telling how hot will effect some folks—in fact, it is said some have fled from the heat about that camp.

There will be something good for every Chautauque you will enjoy.

R. S. McQueen is much out of a very strict thermometer to his friends and customers which should be appreciated these warm days as most of us like to know just how many degrees of heat we have to kick about.

THE UNITED CHURCH

The evening service in the United Church will be merged in the community service being held in the Chautauque tent. It is hoped that the service will be well attended by the people of town and district.

The regular service will be held in the United Church on Sunday morning at 10:30 o'clock. In this service the regular preaching service and the Sunday school are merged and the interest and attendance are growing each week. A cordial welcome for all.

CARD OF THANKS

We wish to thank the Oldfellows friends and neighbors for their kindness and for the floral offerings in our recent bereavements in the death of our husband and father-in-law. NORA A. CALKINS, CELIA McCLECKRY, O. B. GARDNER and FAMILY.

HORSES IMPOUNDED ON BLACKFOOT RESERVE

LOCAL HAPPENINGS AT QUEENSTOWN

Mr. Ed Jennings is painting his store.

Mr. Allan Robertson made a trip to Calgary last week.

Mr. Eddie Watson is the owner of a new Essex, while Mr. Fred Taggart is driving a brand new Pontiac.

Harvest will be starting before long. Our local implement dealers are displaying harvesting machinery.

Frank Vickers is back from the hospital and is gaining in strength. He will be as well as ever shortly, we hope.

The school board has built a fence around the school grounds and black-bull camp, and are now preparing the ground for planting trees.

The work of adding to and improving the school building has commenced. The basement has been dug and work on the building is starting. It will be completed before school opens in September. When finished and bricked the new school will be a fine looking building.

Work is proceeding on the roads on east and west of town. Mr. A. B. McDonald has been constructing culverts on the road west while Mr. Steve Williams is in charge of the road to the east. When these roads are finished we will have good roads into town from two directions. The roads north and south are not very good yet.

THE GLEICHEN HOSPITAL

A few years ago there was a little agitation over the need of a hospital in Gleichen, and a great effort was made for a time when it was feared it might be closed, but since our hospital was taken in charge by an individual and the hospital removed from the shoulders of the town people to rest whatever has been put forward to assist in any way. We have today in the Gleichen Hospital an institution worthy of every attention—managed by a qualified matron and acknowledged by the Provincial Government. Our private hospital has been as essential as though public ownership. And as similar private ownership as our efforts are made by other towns there appears no reason why Gleichen should not assist and take an interest in this town and district. It can be in a very bad night which can be closed. Therefore, many of our Gleichen Hospital, open to keep the Gleichen Hospital open, as an effort should be made to relieve it of every possible burden, such as taxes, etc.

One thing is dead sure. The Gleichen line is not going to be increased by a tax rate.

A tax rate of 6 or more will be a dead one and takes up twice as much money.

Have patience with a friend rather than lose him forever.

GLEICHEN FOR SALE

Oil Warehouse situated on the Canadian Pacific Ry. Must be disposed of at once. All offers to be made to our Calgary Office.

ST. ANDREW'S CHURCH SERVICES

Sunday August 14, 1928.
9th Sunday after Trinity.
Sunday School 11 a.m.

Prayer service: United services will be held on Sunday evening at 7:30 p.m. in Chautauque tent. The minister in charge, there will be no evening service in St. Andrew's church.

The Rev. Brother Gilney will conduct the Memorial service at 8 o'clock, (Tuesday, August 14, at 2 p.m. in St. Andrew's Church. It is very specially requested that all brother means will make an endeavor to be present, wishing to attend.

This service is open to the public wishing to attend.

A blatter is a thing you look for while the ink is drying.

The trouble would appear to be that we have developed a limousine race on a bicycle income.

This is the time of the year when men love to leave their footprints upon the sands by the swimming pool.

An older fellow led to his own poetry writing. Here is one of his paragraphs from a story of a wedding.

"It was a wonderful wedding. The girl was as sweet as any girl you ever lived, but modern. As she walked up the aisle on her father's arm, her lips lightly tilted at the corners in a happy smile, she was a picture of modern beauty. Her tiny wedding gown and gossamer veil floated around her fair blonde head like a halo. She was as nearly an angel as girl-get to be in this world. At the altar as she passed from her father, the men who had always lived, to the men to whom she would devote the rest of her life, her delicate shoulders quivered, her eyes resting on the floor and turned it over. Smiling, again, she turned to her father, and said: 'That was a hell of a place to get a lip!'"
